

Statistics

The following are raw statistics of our services in 2022. Please look beyond the numbers as each number is a face in our community who needed help; the faces of men, women, and children... our neighbors and friend. In 2022, we helped provide community programs to over **3,600 people**.

Poverty isn't gender-specific, but trending does tend to show an impact on females more than males; this is evident by females making up **58%** of our consumer base.

Poverty doesn't discriminate by age and is felt throughout the entire age spectrum; this is evident by seniors making up **16%** of our consumer base and children making up **34%**.

In addition, last year **27%** of our consumer base reported some level of disability.
